Re: Egan Marine Inc./Service Welding and Shipbuilding in Lemont, Illinois
Waste Oil Pit Potential Discharge to Chicago Sanitary & Ship Canal

Dear Mr. Martin:

I spoke to you on Friday, June 30, 2000 with regard to the above matter. I also faxed you a copy of the complaint filed by the Illinois EPA concerning the same matter. During our conversation I indicated that the materials had been removed from the site during the month of May this year. The materials were removed by Land and Lakes Company, 12123 South Stony Island Avenue, Chicago, Illinois 60633. Their telephone number is (773) 646-6756. Prior to removal samples were taken and the waste was found to be non-hazardous. I have included a copy of the Land and Lakes permit authorization for the removal.

When we spoke on Friday you indicated that since the waste was removed we may not have to answer the Unilateral Administrative Order at this time. Would you please confirm that we have supplied a written 3 day response and that subject to your agencies inspection there has been compliance with the removal of the materials.

Thank you for your prompt consideration of this matter.

Yours truly,

Thomas J. O'Donnell
